FDA INDIRECT FOOD CONTACT APPROVALS

(Last Updated 10-11-21)

[Disclaimer](#)

Acrylates are subject to a number of federal and international statutes and regulations. The table below presents FDA indirect food contact approvals for the polymers made from the BAMM acrylates. Consult the regulation for any specific requirements for use. The table contains links to websites maintained by third parties. Links to third party websites are provided for user convenience only and do not constitute an approval of BAMM as to their content. BAMM shall not be liable for the availability and content of such third party websites or for any damage or injury resulting from the use thereof.

Disclaimer

This table is not intended to provide a comprehensive listing of all regulations that may apply to acrylates. The table is provided solely as background information and should not substitute for up-to-date research should specific regulatory or other legal questions arise. The table is not intended to be a statement of legal requirements when using or handling acrylates. Although the information in the table is believed to be accurate as of the last update, regulations frequently change and no warranty, expressed or implied, is made concerning the contents. In addition, many states and localities adopt their own regulations, which are not covered by this table. In all events, the user should consult applicable laws and regulations, as well as their supplier's Material Safety Data Sheet, for current requirements. **NO WARRANTY OF FITNESS FOR ANY PARTICULAR PURPOSE, WARRANTY OF MERCHANTABILITY, OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, IS MADE CONCERNING THE INFORMATION PROVIDED HEREIN.**
